Epoch Solid Carbide Threadmills

- Tough and strong edge design provides threading in hardened steels.
- Tip shape reduces cutting resistance, suppresses tool bending
- Drastically reduces tool breakage
- PN Coating provides excellent adhesion and wear resistance

Thread	Neck L	OAL	Description	Part No.	Price
1/4-20	.500	2.75	ET-U20-12.7-PN	MIT62023528	\$199.95

Many other sizes available, Please inquire.

Epoch D Solid Carbide Threadmills

- **No pilot hole needed! This single tool can perform both drilling and threading simultaneously.**
- High-strength edge shape design suppresses edge tip breakage in severe machining environments including hardened steels
- ATH Coating delivers improved hardness and oxidation resistance

RAPIDKUT High Performance Taps

- Yellow ring for tough materials up to 35 HRC
- Designed for high speed tapping applications
- Developed to withstand the high stress and high heat associated with CNC production tapping
- Superior performance in tool steels such as 4140, 4340, H13, D2 and a variety of stainless steels.

**For Steel & Stainless
Up To 35 HRC**

**All Fine Pitch Taps Are Also Available
For The Same Price As Coarse Pitch**
